

Butterfly valve,

High Performance Triple Offset
Lug

Dimensjon	Trykk	Temperatur	Utførelse
DN 50-1200 (2"-48")	PN 20-150 (Class 150-900)	BS 6364 (-196°C), API 609 & ASME B16.34	Lug Type Innspenning

Description

Our Triple offset design ensures safe function and tightness even in case of changing cryogenic temperatures or case pressure peaks. This geometry ensures that the body seal contacts the disc only at the final shut-off position without rubbing or galling.

Triple offset butterfly valve for mounting in between flanges. Full threaded flange allows installation as end valve and inline service.

Made with continuous spindle and metal sealed seats. Spindle extension of a minimum of 250mm is always included for cryogenic applications. Other project-specific requests are of course welcome.
